Hosur, Tamil Nadu • +91 7904440223 • jenishlogesh@gmail.com • [LinkedIn](#) • [Portfolio](#)

UI/UX Designer and Jr Product Designer focused on creating user-centered digital experiences through interaction design, usability-focused workflows and rapid prototyping. Experienced in translating user needs into responsive interface systems using Figma, research-driven design thinking and AI-assisted design workflows.

PROJECTS

GeoRythum— Modern content-focused web platform Present

Editorial Web Platform UX Case Study

- Designed a responsive editorial platform focused on improving readability, information hierarchy and content discovery.
- Created high-fidelity wireframes, interactive prototypes and structured layouts using Figma.
- Applied usability-focused design decisions and visual hierarchy principles to reduce cognitive overload and improve reading flow.

NUNA - Privacy-First Memory Vault & Time Capsule App | [Case Study](#) 2026

UI/UX Designer

- Designed responsive booking interfaces and reusable UI systems for mobile-first service experiences.
- Conducted usability-focused iterations and interface refinements to improve interaction clarity and user flows.
- Applied typography, spacing systems and responsive layout principles for consistent user experiences.

PROFESSIONAL EXPERIENCE

Web Design Intern | July 2023

Caddesk

- Created responsive wireframes, interface layouts and reusable UI structures for web-based design tasks.
- Supported design-to-development workflows through responsive layout planning and rapid interface iteration.
- Communicated design decisions and usability improvements through collaborative design reviews and prototype discussions.

EDUCATION

Karunya Institute of Technology and Sciences, Coimbatore

Bachelor of Technology (B.Tech) in Computer Science and Engineering (AI) - 2025

CERTIFICATION

Digital Skills: User Experience - **Accenture - Future Learn | 2026**

Enterprise Design Thinking Practitioner - **IBM SkillsBuild | 2026**

Graphic Design Essentials - **Canva Design School | 2026**

SKILLS

UX Research & Product Design: User Research, Product Thinking, Product Intuition, Wireframing, Rapid Prototyping & Iteration, Usability Testing, User Flows, Responsive Design.

UI/Visual Design & Brand Identity: Typography, Color Theory, Layout Design, Spacing Systems, Visual Hierarchy, Human-Centered Design, Design Thinking, Interface Animations, Interactive Storytelling

AI-Assisted Design Workflows: Antigravity, Cursor, Claude Code, Figma AI.

Frontend Basics: HTML, CSS, JavaScript(basics).

Tools: Figma, FigJam, Adobe Photoshop, Framer, Canva.

Creative Tools: DaVinci Resolve, Motion Design, Interface Animations, Video Editing
